Graphic paper	2610	+4.8%	-0.8%	-1.9%

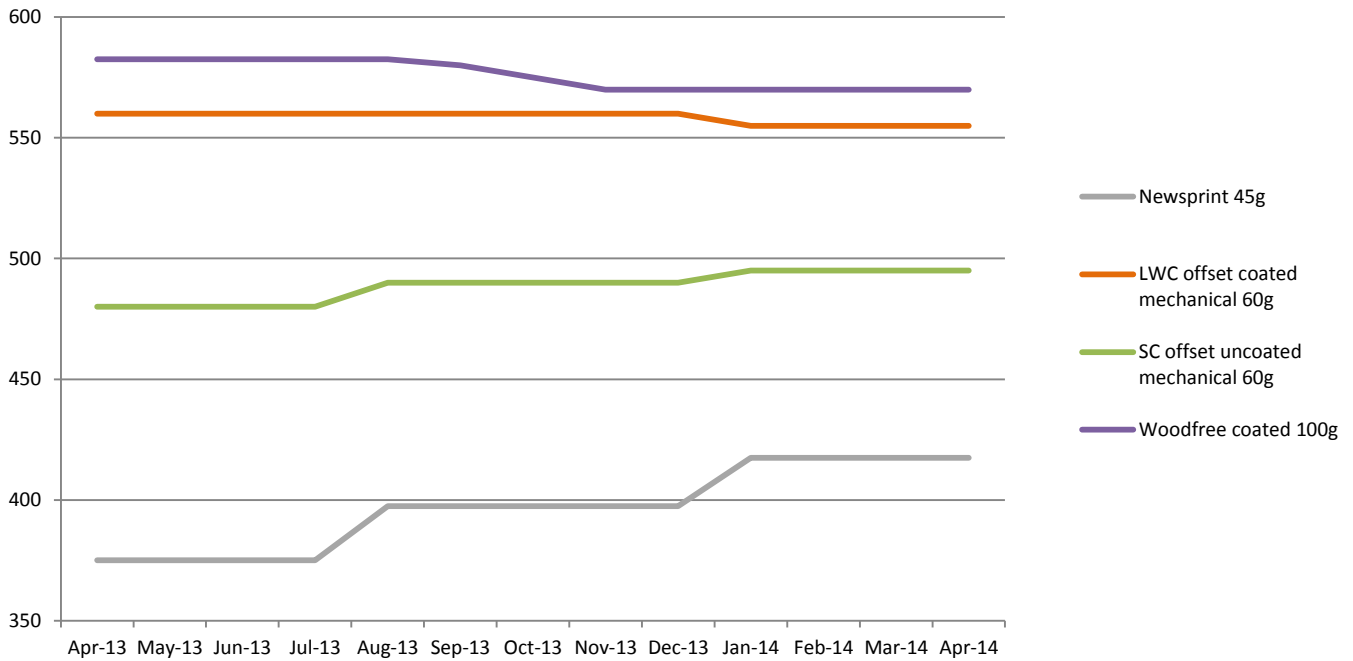

## European graphic paper consumption ('000 tonnes), January- March 2014

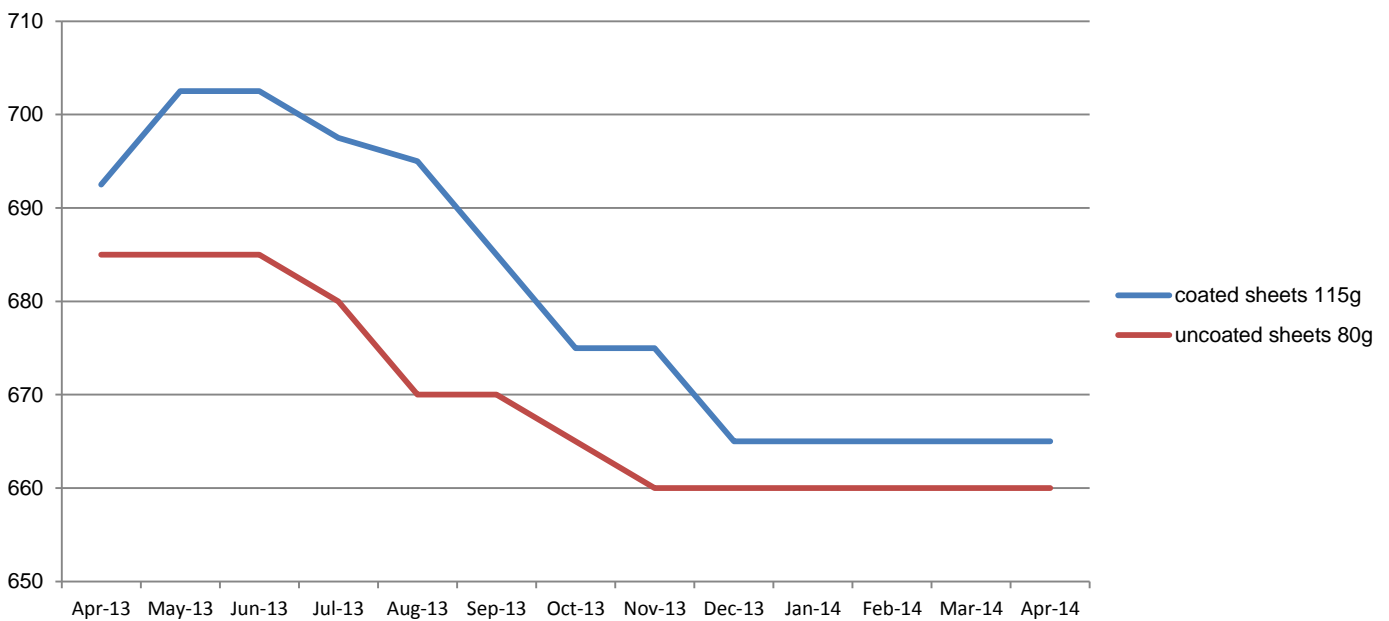

# Paper prices Source: PPI – information is for internal use and should not be widely disclosed

Paper prices are presented as average prices in **£ per tonne**, based on surveyed paper buyers and sellers. The graphs below show the evolution of paper prices **in the UK**; other countries for which paper prices are available (France, Italy, Germany, Spain), show identical trends.

## Paper in reels *(prices are a good reflection of reality)*

## Paper in sheets *(prices are generally underestimated)*

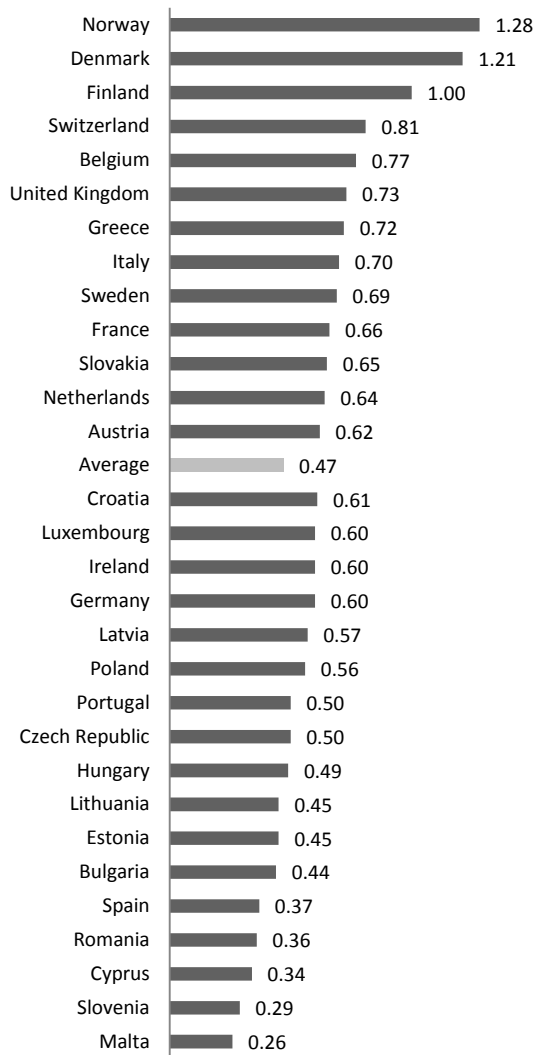

SC: Supercalendared paper  
LWC: Lightweight coated paper

## Postal rates, in €

Prices refer to the fastest letter mail product, i.e. with generally a next-day delivery target, and standard letters. In countries where VAT is levied on the letter services considered, the VAT is included in the price.

**Nominal price for a domestic standard letter, in €, March 2014**

**Nominal price for a letter mailed in Europe, in €, March 2014**
